Incident Monitoring Report (IMR)

- Incident Monitoring Report (IMR) is a joint monitoring activity that involve active constituents of ID-CERT by sending email copy of the incident complaint.
- Currently there is 39 Respondents sending their data to ID-CERT
- Some of respondents: Indonesian ISP's, Indonesian NAP's, Indonesian Telco's Operator, AFCC, Abuse GmbH, ShadowServer, etc
- We need more respondents to get more accurate data for Indonesia.
- Just add CC <abuse@cert.or.id> at your abuse@company
